

Asthma and Allergy
Foundation of America

March 27, 2017

The Asthma and Allergy Foundation's (AAFA) Board of Directors announces Dr. Cary Sennett's departure as President and CEO, effective April 3, 2017. Dr. Sennett has served in an important and urgent role in assisting AAFA with developing programs that will sustain the organization long into the 21st Century, including the recent launch of an innovative Patient and Family Food Allergy Registry to connect patients with researchers. We wish Dr. Sennett the best of luck in his future endeavors and thank him for his service.

Over the next few months the Board of Directors will be conducting a search for the next President and CEO of AAFA. It is our priority to find the best person who will lead us, while maintaining a stable and effective organization to continue to support the over fifty-million Americans who suffer from allergic disease. The job announcement will be shared soon, and we will work hard to identify candidates who can help AAFA continue the important work begun by Dr. Sennett to fulfill our mission and continue on the path to success.

If you have any questions or concerns during this transition, please reach out to me directly at heidi.bayer@numodo.com.

Sincerely,

Heidi Bayer, Chair, Board of Directors, AAFA
